

## **Dr. Hassan Rahnama**

---

### **Personal Information**

---

Surname: **Rahnama**

First name: **Hassan**

Gender: **Male**

Marital Status: **Married**

Nationality: **Iranian**

Date of birth: year: **1968** month: **08** may: **24**

Place of Birth: **Gilan**

Occupation: **Associate Professor, Ph.D**

### **Address**

Department of Genetic Engineering and Biosafety  
Agricultural Biotechnology Research Institute of Iran (ABRII)  
Seed and Plant Improvement Institutes Campus  
P. O. Box: 3135933152  
Mahdasht Road, Karaj, Iran

Phone: +98 26-32703536

Fax: +98 26- 32704539

Email: [hrahnama@abrii.ac.ir](mailto:hrahnama@abrii.ac.ir)

---

### **Academic Carrier**

---

**2004:** PhD in Plant Physiology, University of Tehran, Tehran, I.R.Iran

**1995:** M.Sc in Plant Sciences, University of Tehran, Tehran, I.R.Iran

**1990:** B.Sc in Plant Sciences, Ferdowssi University, Mashad, I.R.Iran

### **Research experience**

- Plant biotechnology and genetic engineering
  - Physiology and biochemistry of plant abiotic stresses
  - Plant cell and tissue culture
-

## On-going projects

- Development of transgenic herbicide and pest resistant soybean plants
- Improvement of oil quality in *Brassica carinata* using CRISPR/Cas technology
- Bio-fortification of Rapeseed with vitamin D using genome editing technology CRISPR/Cas
- Engineering of crude oil-degrading bacteria to produce super bacteria for oil pollution biodegradation
- Arbuscular mycorrhizal fungi in interactive effects of *Macrophomina phaseolina* and water stress in the soybean disease, charcoal root rot

## Performed Projects

### Genetic Engineering of Safflower Plant (*Carthamus tinctorius*) for Improving Oil Quality and Quantity

- Production of Very-Long Poly-Unsaturated Chain (VLC-PUF or Omega3) Fatty Acids in Safflower Plants
- Improvement of seed oil content in safflower plant (*Carthamus tinctorius* L.) by metabolite engineering
- Genome Editing for production of High Oleic Acid Safflower (CRISPR/Cas9 Technology)

### Molecular Farming

- Production of edible vaccine for hepatitis B virus in potato and tomato plants

### Metabolite Engineering

- Genetic transformation of *Silybum marianum* hairy roots using chalcone synthase (*chs*) gene
- Gene silencing of *chs* in hairy roots of *Silybum marianum* using RNAi

### Abiotic stress

- Genetic engineering of *Brassica napus* for resistance to abiotic stress
- Genetic engineering of corn plant (*Zea mays*) using *DREB1A* gene for resistance to abiotic stresses (Drought, chilling and salinity)

### Biotic stress

- Development of potato plants resistant to virus using RNAi
  - Genetic transformation of *Brassica napus* for resistance to pests
  - Genetic transformation of corn plant (*Zea mays*) for resistance to pests
-

- Production of transgenic potato plants (*Solanum tuberosum*) for resistance to potato tuber moth and Colorado beetle
- Greenhouse study of transgenic RNAi potato for resistance to potato viruses
- Genetic transformation of corn plant (*Zea mays*) for resistance to pests and Herbicide

### Risk Assessment

- Evaluation of the food safety of a genetically modified potato expressing Cry1Ab gene using animal model
- Detection of Cry1Ab protein and recombinant DNA fragments in digesta and tissues of rat fed genetically modified potato
- Immune response study to genetically modified potato expressing Cry1Ab gene using animal model.
- Study of feeding transgenic potato expressing cry1Ab gene using animal model
- Evaluation of metabolites and key nutrients in transgenic potato plants resistant to potato tuber moths

### Memberships

- Member of Iranian Biology Society
- Member of Biotechnology Society of Islamic Republic of Iran
- Member of Nanotechnology Society of Iran
- Member of Genetics Society of Iran
- Member of Biosafety Academic Society of Iran
- Member of Iran's Agronomy and Breeding Sciences Society

### Patents

**Rahnama H**, Sattarzadeh G and Kazemi F (2013) NanoMagnetic Kit for genomic DNA extraction from plant tissues. Iranian Patent Grant Number: 80762.

**Rahnama H**, Sattarzadeh G and Kazemi F (2013) NanoMagnetic Kit for genomic DNA extraction from human and animal tissues. Iranian Patent Grant Number: 80628.

**Rahnama H**, Sattarzadeh G and Kazemi F (2013) NanoMagnetic Kit for DNA extraction from Oils, Foods and Feeds. Iranian Patent Grant Number: 80761.

**Rahnama H**, Sattarzadeh G and Kazemi F (2013) NanoMagnetic Kit for recovery of DNA from agarose gel. Iranian Patent Grant Number: 80607.

**Rahnama H**, Ahmadi N and Kazemi F (2013) NanoMagnetic Kit for purification of plasmid DNA bacterial cells. Iranian Patent Grant Number: 80605.

Ahmadian N, Sharifi M, Karimi F and **Rahnama H** (2009) Hairy root induction for production of atropine and scopolamine in *Atropa belladonna*. Iranian Patent Grant Number: 62791.

Hasanloo T, **Rahnama H**, Shamas MR and Sepehri R (2007) Induction of hairy root in *Silybum marianum* as a source of silymarin. Iranian Patent Grant Number: 44195.

### Publications

## Students (As Supervisor)

---

### Ph.D

- **Ghasimi Hagh, Ziba:** PhD in Horticulture Science, University of Tabriz.
- **Ghanbari, Marzie:** PhD in Horticulture Science. Science and Research Branch of the Islamic Azad University. Tehran.
- **Pourianezhad, Farzaneh:** PhD in Horticultural Science, Islamic Azad University, Science and Research Branch, Tehran, Iran
- **Afshar Shandiz, Mohammad:** PhD in Agricultural Biotechnology, University of Tehran
- **Salihian, Hamed:** PhD in Agricultural Biotechnology, University of Mohaghegh Ardabili.
- **Dashchi, Sahar:** PhD in Plant Breeding, Razi University

- **Chenarani, Nasibe:** PhD in Plant Breeding, Zabol University
- **Neysi, Mohammad Amin:** PhD in Agricultural Biotechnology, Agricultural Biotechnology Research Institute of Iran

## **M.SC**

- **Abolghasemi, Shahab:** M.Sc in Agricultural Biotechnology. University of Tehran
- **Mousavi, Atena:** M.Sc in Agricultural Biotechnology. University of Guilan
- **Helali, Leila:** M.Sc in Agricultural Biotechnology., Islamic Azad University Maragheh Branch.
- **Mirroknii, Hamid:** M.Sc in Plant Breeding. University of Tehran.
- **Sattarzadeh, Ghodrat:** M.Sc in Agricultural Biotechnology. Science and Research Branch of the Islamic Azad University. Tehran.
- **Ahmadi, Nahid:** M.Sc in Agricultural Biotechnology. Sari Agricultural Science and Natural Resources University.
- **Jafari Rad, Maedeh:** M.Sc in Agricultural Biotechnology. Shahed University. Tehran.
- **Nassery, Zahid:** M.Sc In Agricultural Biotechnology. Science and Research Branch of the Islamic Azad University. Tehran.
- **Shams, Mohammad Reza:** M.Sc in Plant Breeding, Islamic Azad University Karaj Branch
- **Karimi Afshar, Arash:** M.Sc in Plant Breeding, Islamic Azad University Karaj Branch
- **Razi, Zahra:** M.Sc in Plant Science, Payame Noor University, Isfahan
- **Motallebi, Roya:** M.Sc in Plant Breeding, University of Zabol
- **Sheykhasan, Mohsen:** M.Sc in Plant Biotechnology, Sari Agricultural Science and Natural Resources University.
- **Vakilian, Haghighat:** M.Sc in Plant Biotechnology, University of Zabol.
- **Hivehchi, Jalal:** M.Sc in Plant Breeding, Zanjan University.
- **Feizi, Asghar:** M.Sc in Plant Breeding, Razi University.
- **Fahimi, Hosain:** M.Sc in Cellular and Molecular Biology, University of Tehran.
- **Naderi, Hodjat:** M.Sc in Cellular and Molecular Biology, University of Tehran
- **Takavar, Soheila:** M.Sc in Plant Biotechnology, Mazandaran University
